

The Cash Flow People Group™

“We’re The Cash Flow People Helping To Finance Your Future Today”

The Cash Flow People Group™ was created to provide a forum for independent Certified Cash Flow Consultants (CCFCs) to showcase their business areas of expertise and to provide their customers with the information and tools to take advantage of the wide variety of cash flow options available today. These professionals have received the advanced training which is necessary to identify the ideal funding solution for even the most demanding financial needs. Our CCFCs are members of the premier organization of the cash flow industry, the [American Cash Flow Association®](#), and have access to the most up-to-date information regarding new funding opportunities and changes in the cash flow industry. They can provide accurate information regarding the process towards getting the funding you need.

The Cash Flow People Group CCFCs work with a large network of private lenders who specialize in advance funding for businesses and individuals based on their existing or future income streams and assets, and who purchase commercial and private real estate. With access to capital amounts as low as \$5000.00 and up into millions of dollars, our CCFCs can help take the worry out of the management of your cash flow issues and allow you to focus on your day to day business operations or personal needs. Our CCFCs are the gateway to over 60 categories of cash flows and the variations of unlimited possibilities available to meet your business and personal financial requirements.

At www.cashflowpeople.com you have access to a wealth of information on a variety of unique funding resources and programs specially tailored to quickly assist you with even your most demanding business and personal financial needs. Contact information for Certified Cash Flow Consultants, with informative web pages that detail their areas of expertise, are available along with additional online and downloadable business tools and financial resources. You can download the specific forms required for initiating the process to apply for a cash advance and for many other types of financial transactions.

A typical factoring cash flow example (selling a business invoice for a cash advance) is presented below:

Your business factors an invoice for \$10,000 and you get a 90% (\$9000.00) advance. 10% (\$1000.00) is held in reserve by the lender. At the time that the invoice is paid, the transaction settles with a 3% (\$300.00) fee going to the factor (lender) and the balance of 7% (\$700.00) is placed into the factoring client's business account. In this example the total fee was 300.00 for factoring a \$10000.00 invoice.

We also offer the following services to help you make the most of your cash flow: Online and Estate Auctions, Business Development, Business Opportunities, Marketing, Probate, Real Property, and Website Development
